BIOGEOMETRY

Science of BioGeometry by ***Dr. Ibrahim Karim***

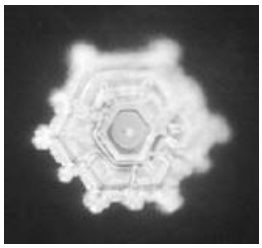

BioGeometry® is a science that deals with the Energy of Shape; it uses shapes, colours, motion, orientation and sound to produce a vibrational quality that balances energy fields. BioGeometrical shapes are two or three-dimensional shapes specially designed to interact with the earth's energy fields to produce balancing effects on multiple levels on biological systems. They were developed and patented by Dr. Ibrahim F. Karim, D.Sc. in Cairo, Egypt, during research since 1968.
